

PROFESSIONAL COVERT KIT, CUSTOMIZED

VELTEK proudly introduces **THE** Professional Covert Kit, customized to specifications. A basic kit begins with **VELTEK's** Model **M-DVR4**, a 4 channel standalone MPEG-2 Digital Video Recorder with a removable hard drive; Model **VCT64LCD**, a 6.4 inch LCD monitor/TV with a companion remote control, and a choice of any **VELTEK** camera(s). The selection can be made from **VELTEK's** line of CCD cameras to **VELTEK's** line of ultraminiature cameras known as **VELCAMS**, to **VELTEK's** own metal-encased board camera kits to **VELTEK's** line of dome cameras. The kit includes a power strip mounted inside the lid of the case, with its cord latched to the outside of the case.

Options for the Professional Covert Kit include equipment to facilitate wireless transmission of images and a serviceman's monitor. Instructions to deploy the kit and manuals for all equipment in the kit are contained inside the case.

External, wireless antenna connection

Inside lid houses (from left to right) a power strip, optional serviceman's monitor, Model **VCT64LCD** (6.4" LCD monitor). 2 optional color board camera kits are shown below the monitor.
